Protective Terminal Design

Provides resistance to acid leaks and seepage, keeping terminal posts clean and corrosion-free.

Enhanced-Life Alloy

Calcium alloy helps increase cycle life, improve performance, and reduce water consumption.

Exclusive ACDelco Charge Eye

The only recreational battery that offers quick-glance charge monitoring (Deep-Cycle only).

Resistant Envelope Separator

Designed to help eliminate shorting and corroding for improved reliability and battery life.

Framed Positive Grid

Optimized for conductivity, our framed positive grid technology is vibration-resistant for outstanding cycling performance.

Powerful Price. Powerful Warranty

All of these features, plus the combination of a highly competitive price and a free-replacement limited warranty,* make this one powerful battery.

*To the original retail purchaser. Installation not included. See your local retailer or independent service center that offers ACDelco parts for details.
