

ACDelco introduces new **ACDelco Advantage** rotors and drums!

ACDelco Advantage rotors and drums have ACDelco quality and come at a great price without sacrificing these important features and benefits:

The ACDelco Advantage	
Feature	Benefit
Vane configuration matches the OE design	Allows for proper cooling and reduction in brake noise
Mill-balanced	Helps the rotor function properly, no extra weights are needed
Non-directional finish	Helps the brake pad mate with rotor properly
Rust preventative coating	Reduces rust which could develop while product is being stored
Rotor plate thickness matches OE	Design helps reduce heat checking which may cause premature failure in a rotor
No machining required	Ready to be installed right out of the box
Chamfer angle matches the OE design	Helps the rotor fit onto the hub properly
12-month/12,000 mile warranty	Gives customer piece of mind when compared to a 30-day warranty

ACDelco Advantage | Competitor

Weight Examples	ACDelco Advantage	Competitor
1997 Buick LeSabre	18A559A - 18 lbs	Competitor - 15.7 lbs
