

ACDelco DuraStop Performance Brake Rotors

March 2011

Performance Brake Rotors

The **NEW** ACDelco DuraStop Performance Brake Rotors:

- Are designed with police applications in mind (see application chart on page two)
- Contain specific vane configurations allowing for increased air flow and optimal heat dissipation
- Have a polymer binding coating that acts as armor against the elements
- Use damped iron metallurgy helping to reduce noise and vibration

Performance Brake Pads

The current ACDelco DuraStop Performance Brake Pads feature:

- Rubberized abutment clips (quiet clips)
- Chamfers and slots matchup with OE applications
- Nucap Retention System backing plates (NRS) where possible
- Constrained shim with ACDelco logo

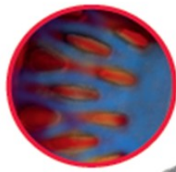

NRS backing plate

ACDelco Brake Offering

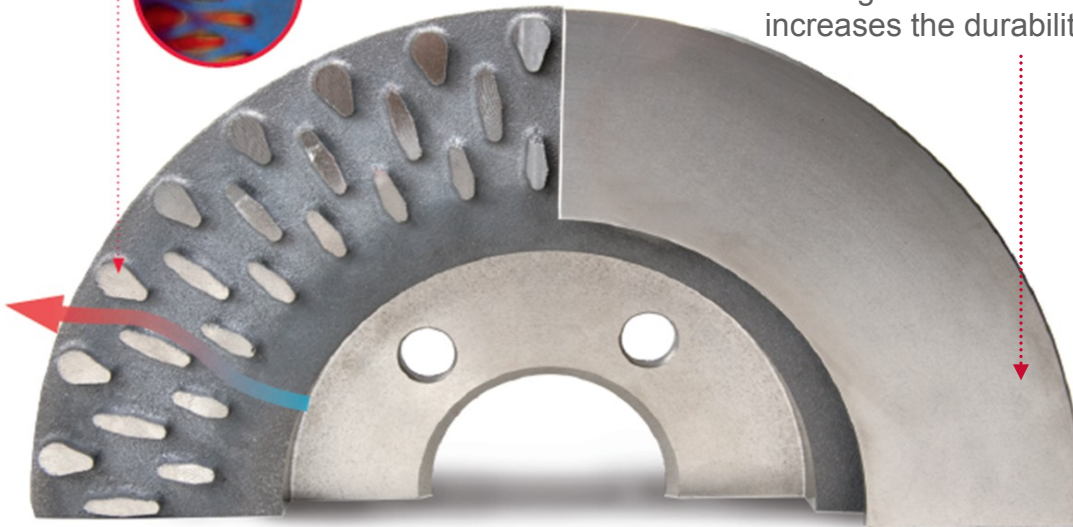

Category	Parts Available	GM / All Makes
Performance	Rotors/Friction	Police Applications
OE	Rotors/Friction	GM Only
DuraStop	Rotors/Friction	All Makes/Models
Advantage	Rotors	All Makes/Models

ACDelco DuraStop Performance Brake Rotors

Vane Configuration: Police applications are demanding and these rotors have been designed to increase airflow allowing for better heat dissipation

Polymer binding coating: this protective coating helps shield the rotor against the elements which increases the durability of the rotor
