## **ACDelco Adds Lighting Wiring Harnesses for Millions of GM Vehicles to its Aftermarket Portfolio**

**GRAND BLANC, Mich.** – ACDelco General Director of Product Development David Mestdagh announced today that independent repair shops can now — for the first time ever — purchase GM OE wiring harnesses for millions of late model Chevrolet, Buick, GMC and Cadillac vehicles directly from ACDelco distributors.

The tail lamp and headlamp harnesses cover 377 different product applications. The vehicle population includes millions of cars, crossovers and trucks.

“ACDelco is the true GM original equipment replacement parts brand, and our goal is to make it easy for shop owners and technicians to do high-quality repairs as quickly and efficiently as possible,” Mestdagh said. “That’s why we are consistently increasing the number of parts available directly from ACDelco to the aftermarket and why we continue to invest in all aspects of our business, from order to delivery.”

While some aftermarket parts can create fitment issues, ACDelco GM OE harnesses are designed by GM engineers to exact vehicle specifications, providing a perfect fit. This allows for more efficient repairs on GM vehicles, helping to significantly reduce repair times.

ACDelco GM OE harnesses also provide better protection than competitors against issues such as water wicking and road debris. Harnesses not designed to exact vehicle applications could be more susceptible to these types of problems.

The introduction of wiring harnesses marks another expansion of ACDelco’s aftermarket product portfolio as this year, ACDelco has introduced 1,264 OE part numbers. Previously only available to dealers, these products include engine strut mounts, pinion gear seals and fuel pump sensors among others.

To learn more about the ACDelco Original Equipment headlamp and tail lamp wiring harness, contact your local ACDelco representative or visit [ACDelco.com](http://ACDelco.com).

***ACDelco** is the exclusive Original Equipment parts brand for Chevrolet, Buick, GMC and Cadillac, as well as provider of premium aftermarket parts for most other makes and models. Other available applications include off-road, marine and industrial. With a century of history behind it and nearly 90,000 parts across 37 product lines, ACDelco is the preferred choice of professional technicians and do-it-yourselfers around the world. To find an ACDelco Professional Service Center program participant or parts retailer, visit [acdelco.com](http://acdelco.com) or call 1-800-ACDELCO.
